

# YOU ARE INVITED TO JOIN BOURBON OFFSHORE DNT PRESENTATION

Wednesday, 20<sup>th</sup> March  
Sala Verde – 14.30 – 16.00

Thursday, 21st March  
Sala Verde – 11.30 – 13.00

Bourbon Offshore DNT, part of Bourbon Offshore, world leader for provision of offshore support vessels, is an ROV subsea works / IMR / Assets Integrity Management contractor, based in Ravenna (Italy).

The purpose of the presentation is to bring forth the MTM technology, which is based on magnetic tomography for inspection of subsea and land pipelines.

This sensor is able to detect anomalies relating to each type of defects of the material, allowing the inspection of pipelines without interfering with the transportation of oil / gas / water / etc..”
