EXHIBITOR SHOWCASE PROGRAM

The OMC EXHIBITOR SHOWCASE programme is a new OMC feature, created for companies who wish to hold a presentation or workshop within OMC event frame. Companies can make their presentation about projects, technology, their know-how or products!

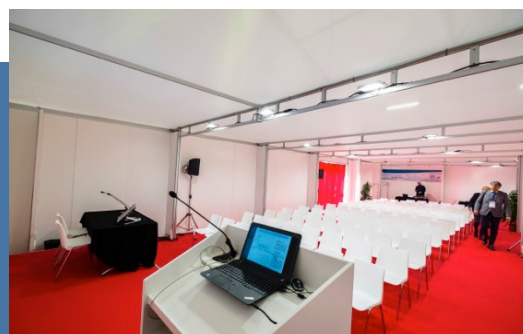

The area is equipped in conference style, with stage, for 70 /100 people* and it can be rented for single or multiple slots (each slot is 90 minutes).

Presentations will be promoted on OMC website (and promotional literature as well) where a dedicated online form will be set for attendees to register.

Access to these presentations is free of charge for OMC attendees and your invited guests!

The rental fee includes:

- *Reserved seats for your guests*
- *Short intro of your presentation on OMC website, on the Exhibition Guide, and on the Conference Programme*
- *Dedicated registration form for registering and collecting data of attendees for your presentation*

THE EXHIBITOR STAGE IS READY FOR YOU

JOIN OMC 2021 EXHIBITOR SHOWCASE

BOOK YOUR EXHIBITOR SHOWCASE SLOT

Rental fee includes:

- Rental for 1 slot – 90 minutes

HAVE A LOOK AT WHAT COMPANIES PRESENTED AT OMC 2019

FREE ADMISSION FOR ALL OMC REGISTERED ATTENDEES
LOCATION: TECH TALKS ZONE – HALL 4

THURSDAY 28TH MARCH 2019

ANIMP & SIM

H 09,30 - 11,00

For information please contact:
ANIMP
Tel. +39 02 67100740
E-Mail: beatrice.lestani@animp.it

From Digital Twin and Construction to Cyber Security. Are you ready for this journey?

ANIMP's SIM (Systems & Information Management) Section Presentation. The Digital Twin is a reality for the E.P.C. & O.O. including Commissioning and Maintenance phases. Speakers will explain the benefits with their applications. Digitalization also requires an adequate cyber security strategy. Speakers will analyse how companies should proactively improve the resilience of their plants and protect their critical assets.

LLOYD'S REGISTER

H 11,30 – 13,00

Lloyd's Register: innovation for the future

- *Offshore Oil and Gas Safety Regulations & Certification - Maximising Value From Regulatory Compliance*
How regulatory compliance process can improve asset integrity and supply chain assurance
- *Additive Manufacturing Metal Components Certification*
The current time is also referred to as the 4th Industrial revolution or Industry 4.0. This era is being determined by the transformation to digital but also the cross over between the digital and physical environment. One of the pillars of change is being considered to be Additive Manufacturing or digital manufacturing. The potential of this new technology goes beyond the disruption of manufacturing but could severely impact the global macro-economic and with it the trade between countries. As part of the adaptation of new technologies the safety, security and reliability are being questioned. Still independent certification can play a major role in adaptation and scaling of new technologies. Also within the new to be set up Additive Manufacturing supply chain, certification will play its part and deliver the assurance.
- *Earthquake Risk Assessment and Risk Management*
Rapid and effective identification of the applicable solutions for retrofitting an existing industrial/civil asset and for integrating safety/emergency procedures. The service is carried out through a New Strategic Risk Model based on the assessment of existing structures/equipment/procedure and it allows to define the most suitable strategy for risk mitigation according to the needs for people safety, environment protection and business continuity.

There are vast profitable and sustainable investment opportunities within the Sultanate of Oman oil and gas sector. The presentation will showcase some potential investment opportunities based on the Petroleum Development Oman LLC future supply chain demands. It will also include some key business benefits and enablers to localize manufacturing and services product line in the sultanate.

BUSINESS GATEWAY / JSRS

H 16,45 - 17,30

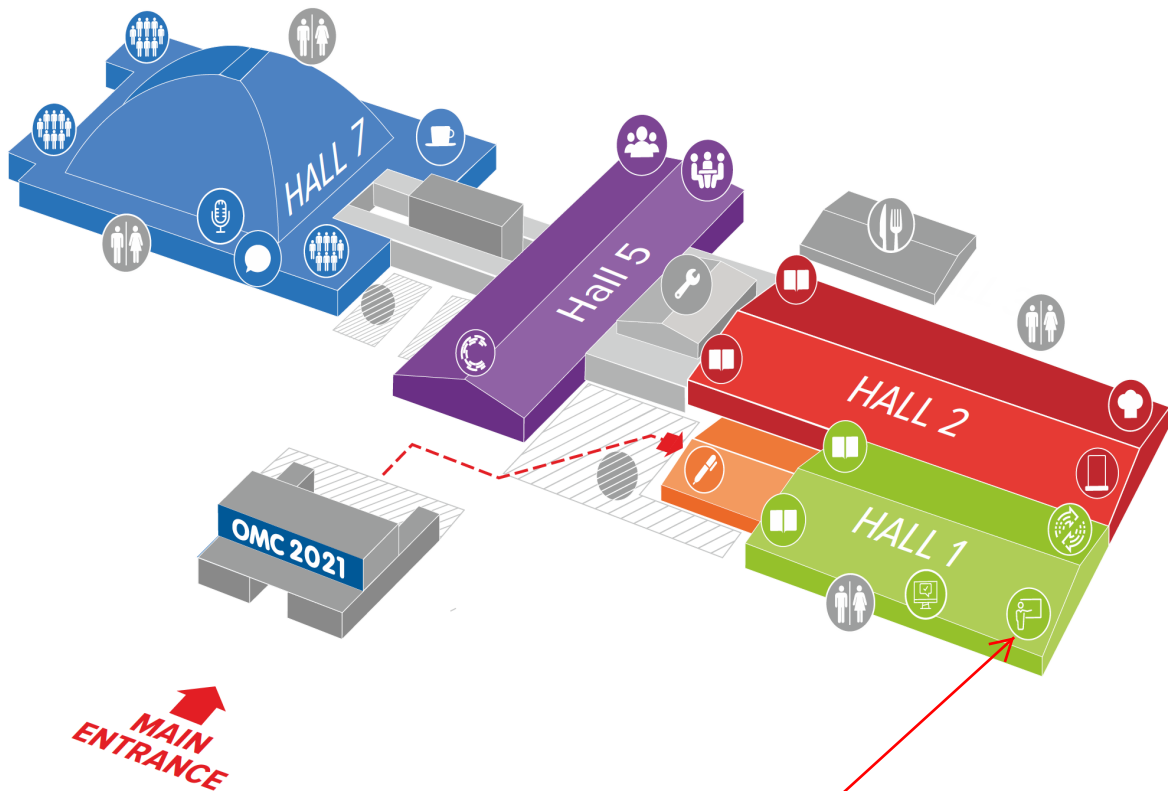

Connect to Oman's Oil & Gas Procurement Action.

For information please contact:
 Sanjiv Padman
 Tel: +968 24166100
 Email: sanjiv@businessgateways.com

This presentation introduces The Sultanate of Oman's Joint Supplier Registration System (JSRS) – The Supplier Certification System for the Oil & Gas Industry initiated by the Oman Ministry of Oil & Gas. The JSRS is an online, single window, mandatory supplier registration and certification system hosted on www.businessgateways.com consisting of thousands of national and international suppliers. The presentation gives an overview of Oman's Oil & Gas Industry, ongoing projects of its key Operators and outlines detailed process for suppliers to obtain the JSRS Certification and qualify to participate in Oman's Oil & Gas procurement opportunities.
