

Commercial Presentation Theatre & Process Equipment Zone (Hall 1)

Day: 25th October
Time: 11,30 - 11,50

BAKER HUGHES
Speaker: Simone Tacconelli

Advanced Services for Normally Unmanned Installations (NUI) offshore

Offshore operators are facing unprecedented challenges operating in harsh/remote environments. Innovations, especially on digitalization and control, help to adopt unmanned solutions while avoiding any compromise on cybersecurity standards. Beyond benefits due to on-site tasks reduction or executed remotely, unmanning can bring to the project further advantages such as increased safety, lower carbon footprint and reduced total cost of ownership. and reduced total cost of ownership.
