

MARCO RUGGIERO – Baker Hughes

Dr Marco Ruggiero is a Senior Engineer at Baker Hughes. He graduated as Mechanical Engineer from the University of Florence in 1996 and holds a PhD in Energy Engineering from the same University. Has been working for over 20 years on R&D programs, designing complex test systems for turbomachinery and components at the beginning of his career and later managing Florence experimental verification laboratory. For the past 5 years he has been managing externally funded projects and development of low maturity technology in collaboration with research institutions. He is also currently member of several technical committees dealing with Energy Technology and its transition to a sustainable future (European Turbine Network Project Board, Thermal Energy Harvesting Advocacy Group (KCORC), CTN Energia Scientific committee, Hydrogen Europe Roadmap 21, SET IWG6 Heat&Cold).
