

DARIO VIBERTI – Politecnico di Torino

Dario Viberti is a senior reservoir engineer and associate professor at Politecnico di Torino. He teaches course on "Fluid Mechanics in Porous Media" at MSc and Second level Specializing Master, and the "Fundamentals of numerical modelling for multiphase flow in porous media" course at PhD level. Dario has 20 years of experience in reservoir dynamic simulation. He is currently part of a multidisciplinary research group dedicated to Hydrogen and CO₂ storage projects. Dario also collaborates with several institutions and companies. Since 1998, he is an active member of the Society of Petroleum Engineers (SPE).
