

LAURA GOVONI – University of Bologna

Associate Professor of Geotechnical Engineering at the Department of Civil, Chemical, Environmental, and Materials Engineering (DICAM) of the University of Bologna, Director of Second Cycle Degree in Offshore Engineering.

In 2007, she acquires the Doctoral degree in Geotechnical Engineering. Since 2019, she is Associate Professor in Geotechnical Engineering at the DICAM Department. The research activities find application in the context of hydro-geological risk management, cultural heritage and renewable energies. She teaches Geotechnical Engineering to the students of combined bachelor/master course in Architectural Engineering and Design of offshore foundations to the students of Offshore Engineering.
