CRISTIAN SCAINI - Saipem

Head of Innovative Projects & Models

Based in Milan, Cristian currently works as Head of Innovative Projects & Models, as well as being Saipem's Energy Manager. He has recently worked in the Business Development of Offshore New Energies and in Digital and Technology Solutions for Sustainable Infrastructures (Railways).

He joined Saipem in 1997, managing innovation and technology investment projects for the installation of large subsea pipelines, the development of O&G subsea fields, the construction of new ships and for underwater technologies. Subsequently he led the Offshore Technology Development and Intellectual Property offices, the management of the Offshore Innovation Projects Portfolio at Corporate and Divisional level and the coordination of Open Innovation.

Cristian holds a Master in Aeronautical Engineering from the Politecnico di Milano and an MBA from Bocconi School of Management and MIP Graduate School of Business.
